

For several years we have been protected by the No-Call list from the Attorney Generals Office and the National No-Call list. I am disappointed to hear that it would be considered to allow some to call. We have had uninterrupted meals and family time without solicitation calls. PLEASE DO NOT ALLOW these lists to be bridged by greedy companies that purport to have a business relationship with me. I can call them if I need them. They do not need to call me. Thank you for hearing my PLEA..
